

Man's Card vs Woman's Card

We've all seen it - a woman will ask a dog to sit repeatedly, then a man will say 'sit' one time and the dog will immediately oblige. Or a dog will be terrified of a man but trust a woman completely.

Men and Women are two sides of the same coin. DOGS NATURALLY RESPECT MEN AND THEY TRUST WOMEN.

Shy, nervous, scared dogs bond much quicker to women. Women typically speak softer, talk in baby-talk to dogs, give them deep-tissue massages and are often more aware of the animals.

While men tend to be more no-nonsense, they don't carry-on as much and they can be unpredictable (to the dog) - waking the dog up from a sound sleep, picking the dog up, yelling at the television, etc.

Soft dogs need to gain trust - Woman's card, while Over-the-top dogs need to respect the people they're around - Man's card

1. Identify the Type of Dog you have
2. Identify the Training styles and behaviors needed to suit their individual needs
3. If you have more than one dog, train them individually then practice (and manage) together
4. Mark and Reward (say Yes! and treat) your dog anytime they do something you want them to repeat – the volume of your Yes! depends on your pups color

Man's card – ask for behavior and follow-up the ask immediately (go to your serious voice), recognize good behavior but don't gush

Woman's card – lots of praise, acknowledgement, reassurance, and patience (you can gush here) lots of touching, petting and massage works well also
